FREMONT NURSERY

FREMONT, OHIO

Photo of Moerheims Blue Spruce growing in our nursery. This block contains about 1000 trees.

MOERHEIMS BLUE SPRUCE—This variety is a distinct improvement on Koster's. A better blue, holding its color throughout the entire winter much better. The new growth usually obscuring completely the old growth of the previous year. Longer needles and a more compact grower. Our supply was imported from Holland in 1922 and are all fine bushy specimen trees. We can supply scions for grafting also. Prices: 200 trees, B. & B., 4-4½ ft., \$15.00 each; 150 trees, B. & B., 4½-5 ft., \$17.50 each; 50 trees, B. & B., 5-6 ft., \$20.00 each.

Some Rare Specimens For High Class Landscape Work

We are offering below some new and rare varieties which are not in general circulation in the nursery trade. If you want to supply your high class trade with the best there is in Blue Spruce or Japan Maple do not fail to familiarize yourself with these varieties offered.

MAGNOLIA—*Soulangeana Nigra*. The dark red form of *Soulangeana*. Much larger leaves which are very glossy. Blooms two weeks later than *Soulangeana*, thus escaping the late frosts in many localities. Frequently has a second crop of blooms in late summer. More dwarf and compact than *Soulangeana*. Our plants are all heavy bushy specimens on their own roots. Also scions.

Prices, All B. & B.

50 Plants, 2½-3 ft., heavy.....	\$ 3.25 each
100 Plants, 3-3½ ft., heavy.....	4.00 each
10 Plants, 5-6 ft., heavy.....	12.00 each
10 Plants, 6-8 ft., heavy.....	16.00 each

We also offer the following list of fine first class stock which we find we have in surplus: Let us have your order for a car load or more.

NORWAY SPUCE—Our Norway Spruce are noted for their fine quality. They are headed back every year, thus producing a fine shaped bushy tree with foliage clear to the ground. They are perfectly shaped and far above most trees grown. We can supply most any size in carload lots.

50 Maple, Norway, 1¾-2 in.	2.50		

JAPANESE MAPLE—Ashio Beni—What the Moerheims Spruce is to Blue Spruce this variety is to other varieties of Japanese Maple. It is an outstanding variety, retaining its red leaves all summer long. Usually starting a second growth in late summer which are of a bright scarlet again. A little more compact and more dwarf than the Atropurpureum. Also some good scions to offer.

Prices, All B. & B.

100 trees, 18-24 in.	\$2.50 each
50 trees, 2-2½ ft.	3.00 each
50 trees, 2½-3 ft.	4.00 each
